IDEA

Introducing our new sensational

TWIST 'N' SPLASH

SPIN RIDES

TWIST 'N' SPLASH »

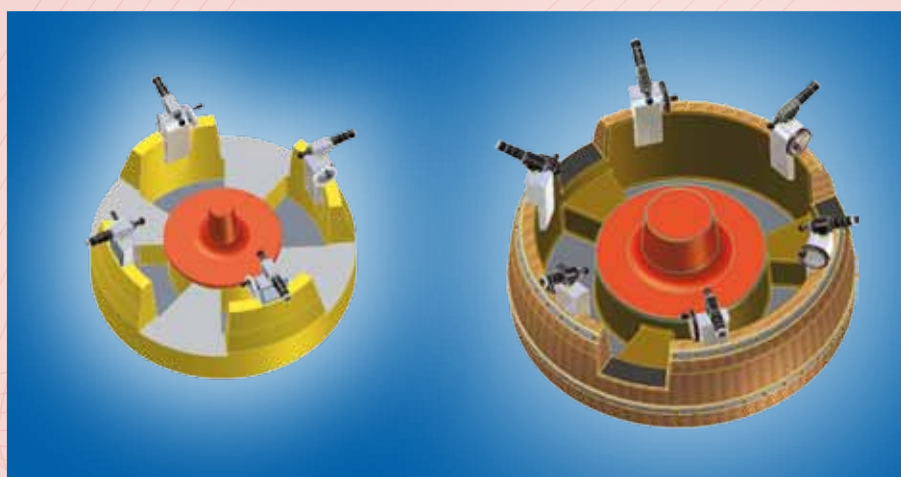

A brand new and exciting spin ride experience that only MACK Rides could bring to life !

We simply combined the fun of an interactive Boat Blaster Ride with the move of the all-time favorite Tea Cup Ride.

Two patented innovations allow the boats to safely free float and rotate on their own axes.

Your guests will enjoy the interactivity of shooting water on either boats or targets passing by while twisting in a whirlpool of fun !

- » New generation of Boat Blaster Ride as a Spin Ride with interactive fun for the whole family
- » Patented free floating boats rotating on their own axes in combination with the movement of the all-time favorite Tea Cup Ride
- » Modular through many configurations combined with different boat types
- » Lifiable platform for a dry and secure load/unload procedure
- » No electrical drives in water
- » Best capacity and interactive value for your budget
- » Eye-catching and highly attractive through interactive action between riders and non-riders as well as endless possibilities of theming
- » Based upon reliable well-known technical solution with many years of operational experience
- » Easy and cost-effective operation and maintenance
- » No expensive infrastructure needed
- » Plug & Play lake installation available on request
- » Great for Theme Parks, Fairgrounds, Waterparks and Resorts
